UPGRADE FOR LESS THAN YOU THINK

Buying a \$1,000,000 home would normally mean \$12,210 per year in property taxes for any buyer. Because of Prop 19, your taxable base is blended with your existing assessed value – bringing that down to an estimated \$7,326 per year. The upgrade you've been putting off just became more financially realistic.

Even when buying above your sale price, Prop 19 protects you from starting at full market value on your tax base.

 Prop 19 benefit may be used up to 3 times for homeowners 55 and up.
